

## CleverBox Venetian Blinds

The CleverBox Venetian Blinds are characterised by modern appearance, ease of installation, high aesthetics and quality. Thanks to high level of control over the angle of the slats, it is possible to achieve the proper amount of shade and to create a pleasant indoor atmosphere. The slats reflect most sunlight before it reaches the window, ensuring favourable optical and thermal conditions.

protection from excessive sunlight for pleasant indoor chill

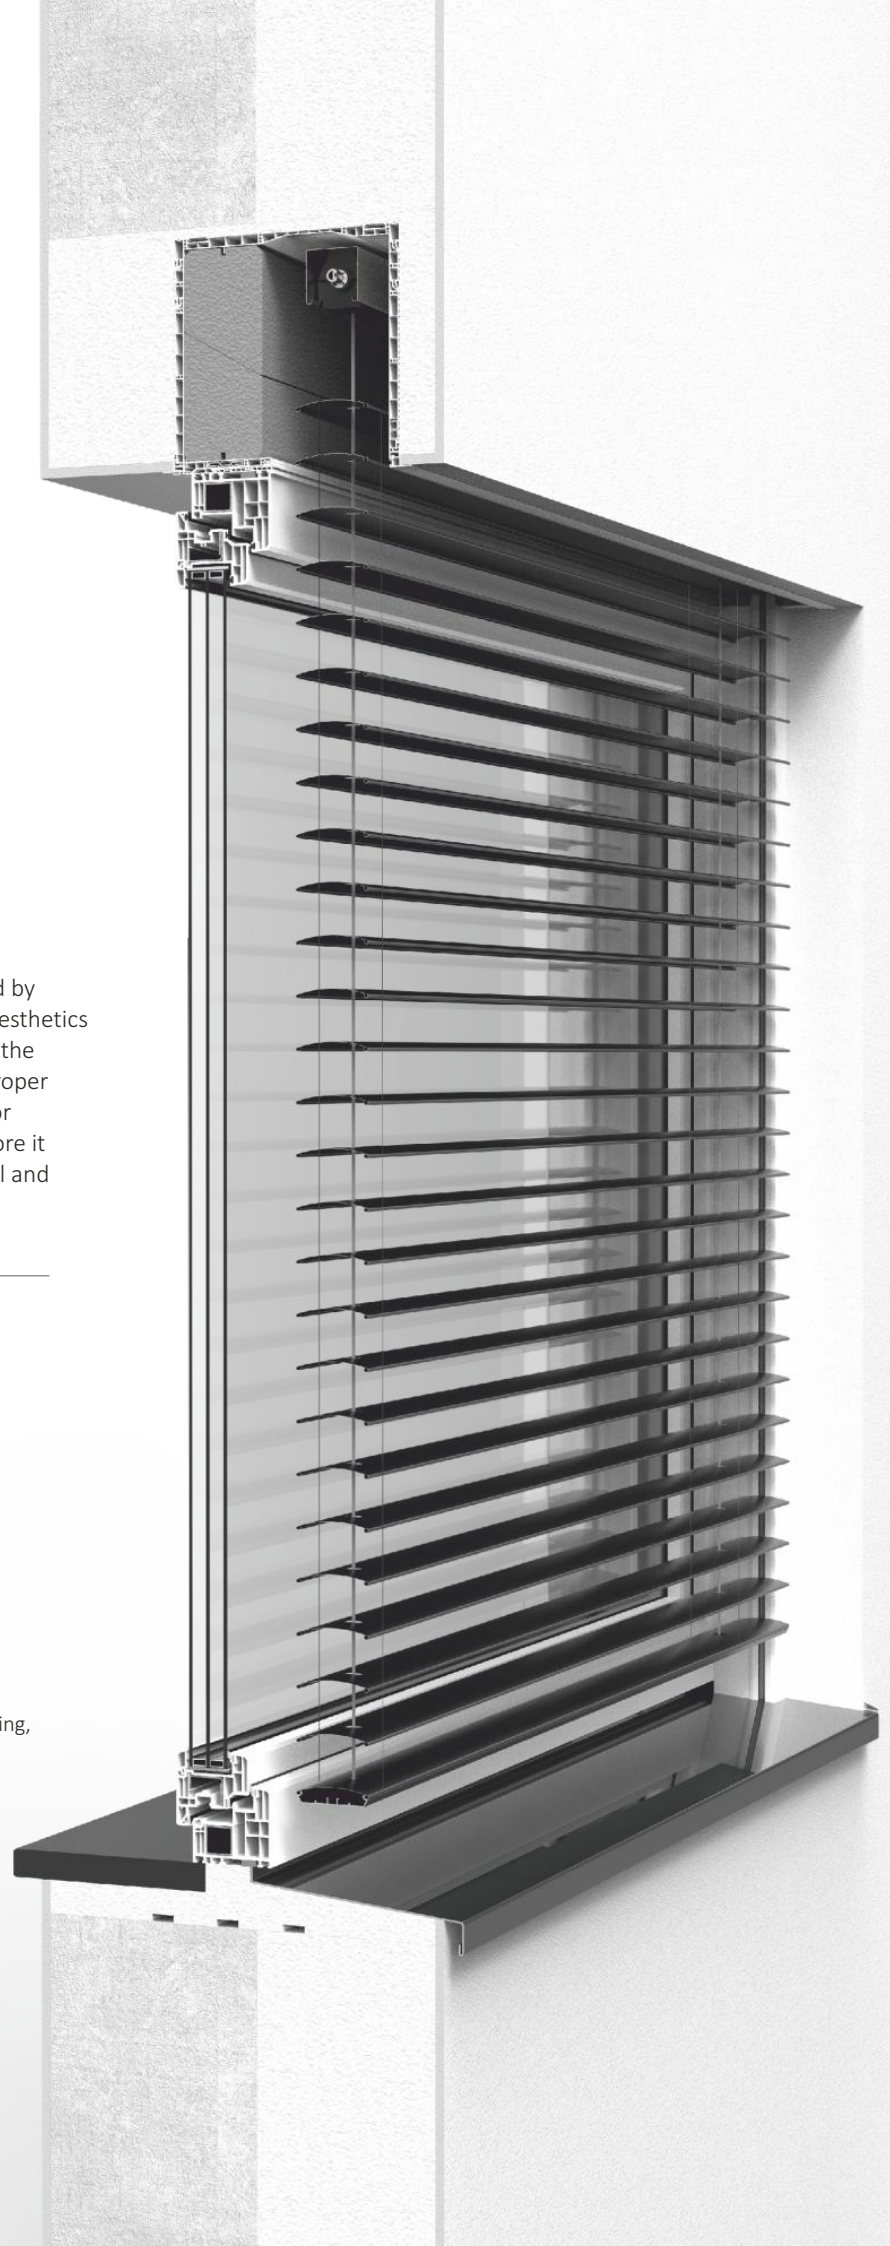

for greater privacy and increased sense of security in your household

optional roll-up insect screen to protect against unwanted insects, dust and dirt

improved thermal insulation of the building, giving benefits in summer and winter
